4-tert-Butylbenzaldehyde

List of Abbreviations	IX
Summary and Conclusions	XI
Data Gaps	XIV
1 Characterization of the Substance	1
1.1 Descriptions of the Substance	1
1.2 Chemical and Physical Properties	1
Composition of the Technical Product	1
Chemical Properties	2
Physical Properties	2
2 Analysis	4
3 Production, Application, Disposal – Emission into the Environment	6
3.1 Production	6
Methods	6
Manufacturers and Quantities	6
Import, Export	7
3.2 Applications	7
3.3 Emission into the Environment	8
Emission into the Environment Through Production and Processing	8
Emission into the Environment Through Application	8
Formation from Non-Secondary Products	10
Overview of the Emission into the Environment	11
4 Environmental Occurrence	12
4.1 Measurements	12
4.2 Estimation	12
Atmosphere	12
Hydrosphere	12
Geosphere	12
5 Environmental Behavior	13
5.1 Transformation, Degradation, and Degradation Products	13
Biodegradation	13
Transformation in Air	14
Transformation in Water	14
Transformation in Soil	14
Degradation Products	15
5.2 Partitioning Behavior and Transport Processes	15
Accumulation	15
Partitioning	16

6	Ecotoxicity	18
6.1	Effects on Aquatic Organisms	18
	Summary	18
	Microorganisms	19
	Algae	20
	Invertebrates	20
	Vertebrates	21
6.2	Effects on Other Organisms	21
	Plants	21
	Invertebrates	21
	Vertebrates	21
7	Toxicity in Warm-Blooded Animals	22
7.1	General Effects	22
7.2	Mode of Action	22
7.3	Metabolism and Toxicokinetics	22
7.4	Acute Toxicity	23
7.5	Skin and Mucous Membrane Tolerance	24
7.6	Sensitizing Effect	25
7.7	Subacute, Subchronic, and Chronic Toxicity	26
7.8	Genotoxicity	26
7.9	Carcinogenicity	28
7.10	Reproduction Toxicity	28
7.11	Other Effects	28
7.12	Human Cases	29
8	Substance-Specific Legal Regulations	30
9	References	31
