Pentachlorophenol (CAS No. 87-86-5)

Pentachlorophenol-Sodium (CAS No. 131-52-2)

1	Test Recommendations from BUA Report 3 (Status: October 1985)	1
2	Present State of Knowledge	3
3	References	3

Contents

3-Trifluoromethylaniline (CAS-No. 98-16-8)

A Ecological Aspect	1
1 Summary and Conclusions from BUA Report 44 (Status: September 1989)	1
2 Test Recommendations from BUA Report 44	3
3 Conclusions Based on the Changed Exposure Situation	4
4 References	6
B Toxicological Aspect	7
1 Summary and Conclusions from BUA Report 44 (Status: September 1989)	7
2 Test Recommendations from BUA Report 44	8
3 Summary and Conclusions: Supplementary Data	9
3.1 Investigations on a Sensitising Effect	9
3.2 Conclusions from the Missing Exposure Situation	9
4 References	10

Contents

Chlorotoluidines

3-Chloro-2-methylaniline (CAS No. 87-60-5)

3-Chloro-4-methylaniline (CAS No. 95-74-9)

5-Chloro-2-methylaniline (CAS No. 95-79-4)

A	Ecological Aspect	1
1	Summary and Conclusions from BUA Report 55 (Status: December 1990)	1
1.1	Occurrence and Distribution in the Compartments	1
1.2	Degradability	2
1.3	Accumulation	3
1.4	Ecotoxicity.....	3
2	Test Recommendations from BUA Report 55	6
3	Summary and Conclusions: Supplementary Data	7
3.1	Bacterial Toxicity of 3-Chloro-2-methylaniline, CAS No. 87-60-5	7
3.2	Bacterial Toxicity of 5-Chloro-2-methylaniline, CAS No. 95-79-4	7
3.3	Daphnia Toxicity (Acute) of 3-Chloro-2-methylaniline, CAS No. 87-60-5 ..	7
3.4	Daphnia Toxicity (Acute) of 5-Chloro-2-methylaniline, CAS No. 95-79-4 ..	8
3.5	Fish Toxicity (Acute) of 5-Chloro-2-methylaniline, CAS No. 95-79-4	8
3.6	Summary of the Results and Conclusions	9
4	References	10

B	Toxicological Aspect	11
1	Summary and Conclusions from BUA Report 55 (Status: December 1990)	11
2	Test Recommendations from BUA Report 55	13
3	Summary and Conclusions: Supplementary Data	14
3.1	28-d Rat Study, Oral with 3-Chloro-2-methylaniline, CAS No. 87-60-5	14
3.2	Sensitising Effect of 3-Chloro-2-methylaniline, CAS No. 87-60-5	15
3.3	Sensitising Effect of 5-Chloro-2-methylaniline, CAS No. 95-79-4	15
3.4	Genotoxicity <i>in vivo</i> of 3-Chloro-2-methylaniline, CAS No. 87-60-5	16
3.5	Structure-Effect Considerations on Genotoxicity/Carcinogenicity.....	16
3.6	Summary of the Results and Conclusions	24
4	References	26

Contents

2-Mercaptobenzothiazole (CAS No. 149-30-4)

A	Ecological Aspect	1
1	Summary and Conclusions from BUA Report 74 (Status: June 1991)	1
2	Test Recommendations from BUA Report 74	8
3	Summary and Conclusions: Supplementary Data	9
3.1	Environmental Behaviour.....	9
3.2	Analyses of Road Drainage Water and Roadside Soil	10
3.3	Determination of Major Sources of Emission	12
3.4	Conclusions.....	13
4	References	14
B	Toxicological Aspect	15
1	Summary and Conclusions from BUA Report 74 (Status: June 1991)	15
2	Test Recommendations from BUA Report 74	17
3	Summary and Conclusions: Supplementary Data	18
4	References	19

4-Chloro-2-methylphenol (CAS No. 1570-64-5)

(p-Chloro-o-cresol, PCOC)

A	Ecological Aspect	1
B	Toxicological Aspect	2
1	Summary and Conclusions from BUA Report 134 (Status: June 1993)	2
2	Test Recommendations from BUA Report 134	3
3	Summary of Test Results and Conclusions	4
3.1	Subacute and Subchronic Toxicity	4
3.2	Genotoxicity	5
3.3	Reproductive Toxicity	6
3.4	Conclusions	7
4	References	8

Contents

Dimethyldicykan (CAS No. 6864-37-5)

A	Ecological Aspect.....	1
1	Summary and Conclusions from BUA Report 143 (Status: April 1994).....	1
2	Test Recommendations from BUA Report 143	5
3	Summary and Conclusions: Supplementary Data	6
4	References.....	8
B	Toxicological Aspect.....	9

Contents

Isodecanol (CAS No. 25339-17-7)

A	Ecological Aspect	1
1	Summary and Conclusions from BUA Report 149 (Status: December 1993)	1
2	Test Recommendations from BUA Report 149	4
3	Summary and Conclusions: Supplementary Data	5
3.1	Production, Processing, Emissions	5
3.2	Degradation	5
3.3	Ecotoxicity.....	6
4	References	11
B	Toxicological Aspect	13
1	Summary and Conclusions from BUA Report 149 (Status: December 1993)	13
2	Test Recommendations from BUA Report 149	14
3	Summary and Conclusions: Supplementary Data	15
4	References	18
